

A Proven Legacy

Yamaha transformed adventure riding in the 1980s when it launched the XT500. The winner of the first ever Paris-Dakar Rally, the XT brought dual purpose riding to the masses and became the go-to 'round the world' bike for the world's most adventurous riders. By 1983 the XT had evolved into the Ténéré 600 and became the quintessential go-anywhere bike. More Dakar wins followed and the legend was confirmed. Now the Ténéré 700 carries its name and legacy with pride – a modern motorcycle embracing exactly the same values as its storied ancestors.

Featuring rally-bred technology including adjustable suspension, lightweight spoked wheels, rider aids which can be switched off at the press of a button and a tough steel chassis, this Dakar-inspired motorcycle makes world travel a reality. Styling is pure Ténéré, stylish yet practical, with the classic tall screen and minimalist rear section combining to deliver perfect ergonomics on and off road.

- Factory lowered version available (860mm seat height). Note: Suspension systems differ for the lowered version.
- Latest EU5+ 690cc CP2 engine
- Slim and compact body, with flat seat and redesigned fuel tank
- Lightweight double cradle tubular steel frame.
- Fully adjustable 43mm upside down forks
- Remotely adjustable rear suspension.
- YCC-T electronic throttle and power modes
- Switchable ABS and TCS at the press of a button
- 21-inch/18-inch spoke wheels.
- 6.3-inch colour TFT with connectivity and navigation
- Intuitive switchgear and turn signal functions

Whatever kind of riding you have planned, the Ténéré 700 is all the bike you need. The YCC-T electronic throttle system brings with it a new level of adjustability with features like ride modes, traction control and switchable ABS all coming as standard. The latest 6.3" TFT dashboard and intuitive switchgear not only feel premium, they facilitate smart technology like turn-by-turn navigation and the ability to adjust the bike's electronic settings on the fly. It's a level of sophistication which could never be imagined when the Ténéré story began over 40 years ago, but which ensures this icon remains equipped for modern day riding – without losing the essence of what makes it so appealing to riders across the globe.

Chase the Next Horizon

When you're riding the Ténéré 700, you are riding a legend. It's built tough, and the lowered version is no exception. From the 15mm reduction in seat height and the adjustable suspension to the carefully considered riding position and electronic aids that you can switch off when required, it's a motorcycle capable of taking on any terrain you throw at it. Lighter than the competition and with an engine tuned for torque, this go-everywhere, do-anything motorcycle embodies the very spirit of life on two-wheels and the sense of adventure within us all.

The Ténéré 700 is powered by Yamaha's award-winning 690cc CP2 engine, tuned and geared specifically for this model. Now equipped with the YCC-T electronic throttle, the latest Ténéré 700 introduces a suite of features to adapt the riding experience for all conditions including two ride modes, Sport and Explorer, giving you the possibility to choose the best power and torque characteristics to meet your riding needs. ABS and TCS can also be turned off to give you total control, which is particularly useful on unpaved surfaces. No other adventure bike delivers such a holistic balance of power and control; a rally-bred machine designed to take on whatever is thrown at it.

Ténéré 700's latest tough steel chassis is robust, enhanced and designed to offer a controlled and engaging ride in a wide variety of environments. Adjustable suspension and large spoked wheels contribute to optimal ground clearance and a commanding riding position, which comes to the fore on and off road, whether you choose a standing or seating position. The striking lightweight bodywork has been designed to protect you from the worst of the elements, while a comprehensive 6.3" TFT dashboard provides all the vital information you need at a glance.

Ténéré 700 (Low)

Factory lowered version available

Ténéré 700 comes with a more accessible lower seat height version, available straight from the factory. With 20mm less suspension travel front and rear, as well as a shortened kick stand, this version has a 860mm seat height and retains a commanding seating position, while opening up the Ténéré experience for those who prefer a lower seat height. Note: This version features front forks specific front and rear suspension systems with different specifications.

New rally-bred headlight and body design

New headlight and body design pays homage to Yamaha's rallying heritage. The silhouette is classic Ténéré, being high and vertical at the front, while low and light at the rear. Each panel has been carefully designed to keep weight to a minimum, while the iconic quad LED headlamp is also redesigned to offer a fresh and aggressive look, while offering improved illumination when riding at night.

Slim and compact body, with flat seat and redesigned fuel tank

The Ténéré 700 has been carefully updated to offer even better agility when riding off road. The new fuel tank has been moved forward and the fuel cap sits lower for improved weight distribution, while the shape is narrower to offer improved knee grip for maximum control on all kinds of surfaces. This is complemented by a new flat rally style seat which is narrow and makes it easy to shift your weight around.

KYB front forks and rear shock

With 225mm ground clearance and 190mm wheel travel, the lowered Ténéré 700 delivers confidence and comfort on every ride. Its 43mm KYB front forks feature adjustable compression and rebound damping for precise handling. At the rear, a fully adjustable shock and linkage configuration provides 180mm travel (20mm less than the Ténéré 700) ensuring a balanced ride. Together, these adaptations reduce seat height for easier ground access without compromising performance.

Double cradle tubular steel frame.

Well proven in Yamaha's rally raid programme, the tough double cradle tubular steel frame combines strength with light weight. The combination of a short wheelbase and narrow gait makes for an agile motorcycle with plenty of space for you to move around, while the tall suspension gives 240mm of ground clearance for tackling tough terrain.

Latest EU5+ 690cc four-stroke CP2 engine

Updated in the latest Ténéré 700, the critically acclaimed CP2 engine benefits from the adoption of the YCC-T electronic throttle, which facilitates a host of new features and an improved torque curve. A new air intake and a smoother gearshift are among the updates, while externally a new clutch cover gives you more legroom in both the seated and standing position.

Engine

Engine type	4-stroke; 2-cylinder; Liquid-cooled; DOHC; 4-valves
Displacement	689cc
Bore x stroke	80.0 x 68.6 mm
Compression ratio	11,5 : 1
Lubrication system	Wet sump
Clutch type	Wet; Multiple Disc
Ignition system	TCI
Starter system	Electric
Transmission system	Constant Mesh; 6-speed
Final transmission	Chain
Fuel system	Fuel Injection
Maximum power	54,0 kW (73,4 PS) @ 9.000 rpm
Maximum torque	68,0 Nm @ 6.500 rpm
Limited power version	N/A
Fuel consumption	4.3 L/100 km
CO2 emission	N/A

Chassis

Frame	double cradle; Steel tube backbone
Front suspension system	Upside-down telescopic fork, Ø 43 mm
Front travel	190 mm
Rear suspension system	link suspension; Swingarm
Rear travel	180 mm
Front brake	Hydraulic dual disc, Ø 282 mm
Rear brake	Hydraulic single disc, Ø 245mm
Front tyre	90/90 - 21 M/C 54V
Rear tyre	150/70 R 18 M/C 70V
Caster angle	27°
Trail	105 mm

Dimensions

Overall length	2.350 mm
Overall width	935 mm
Overall height	1.440 mm
Seat height	860 mm
Wheel base	1.595 mm
Minimum ground clearance	225 mm
Wet weight (including full oil and fuel tank)	208 kg
Fuel tank capacity	16,0 L
Oil tank capacity	3 L

Screen & Connectivity	
Adaptive Cruise Control	No
Screen type	TFT
On-screen Navigation	MyRide turn-by-turn
Smartphone Connectivity	MyRide
Screen size	6.3 inch
