

Love the way I move.

The new Tricity 125 is one of the most easy, enjoyable and accessible urban commuters on the street. Easy, because of its stable 3-wheel feeling and confident handling. Enjoyable, thanks to its relaxed riding position and simple controls. And accessible, because you can ride this stylish scooter if you hold a car B licence.* (*Limitations and restrictions may apply per country under applicable laws. Additionally, Yamaha recommends all riders to take a motorcycle training course before riding any two- or three-wheeled vehicles.)

Connected TFT instruments with enhanced functionality enable you to view incoming phone calls and texts, listen to music, check weather reports and access turn-by-turn navigation via your smartphone*. And the new Tricity 125 is accessory ready, making it easy to fit a variety of functional and stylistic parts. (*Requires MyRide app.)

- Stylish and compact new body design
- Connected 4.2 inch TFT display
- Fuel efficient EURO5+ 125cc engine
- Onboard navigation system via smartphone
- Convenient Smart Key system
- Fuel saving Stop & Start system
- Leaning Multi-Wheel (LMW) steering
- Handy USB Type-C power socket
- Accessory-ready body design

With its more compact body as well as full LED lighting and prominent wheel arches, this dynamic Tricity 125 combines style, practicality and performance. Available in three contemporary colours and with UBS plus optional ABS braking, you're going to love the way you move!

Love the way I move.

There are so many reasons why the new Tricity 125 is going to make urban life even better for you. Whether you've ridden before or are new to scooters, the 3-wheel design inspires a strong feeling of stability and riding confidence. And car drivers looking for a more efficient way to commute can ride the Tricity 125 on a B licence*. (*Limitations and restrictions may apply per country under applicable laws. Additionally, Yamaha recommends all riders to take a motorcycle training course before riding any two- or three-wheeled vehicles.)

Riding this stylish 3-wheel scooter is so simple and intuitive. Just twist the throttle and you'll feel the fully automatic 125cc EURO5+ engine accelerate smoothly and quietly. And Yamaha's Leaning Multi Wheel chassis design provides confident turning on wet and uneven road surfaces.

Featuring a compact new front design, the Tricity 125 is equipped with full LED lighting and connected TFT display with turn-by-turn navigation – giving increased convenience that makes every journey so effortless and enjoyable. Equipped with UBS (Unified Brake System), this 3-wheel scooter makes every part of the city feel so much closer.

Stylish and compact new body design

Projecting a sense of high quality together with easy manoeuvrability and stability, the compact new body design is pure Tricity. The stacked LED headlights and horizontal LED position lights create a "Y" motif that reinforces the Tricity family looks – while LED taillights and integrated rear flashers perfectly match the new generation Tricity 125's stylish and contemporary character.

Connected 4.2 inch TFT display

The new Tricity 125's connected 4.2-inch TFT display offers increased functionality, with a choice of display modes and adjustable brightness. Simply download Yamaha's MyRide app and pair your smartphone via Bluetooth and you can access turn-by-turn navigation, as well as see incoming calls and texts, play music and check weather forecasts.

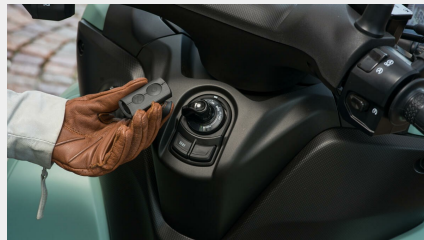

Fuel efficient EURO5+ 125cc engine

The Tricity's latest 125cc EURO5+ engine has been developed using Yamaha's advanced Blue Core technology that helps achieve reduced emissions together with higher efficiency. The latest model provides smooth and seamless acceleration that gives you the performance you need to get into the city with maximum riding enjoyment and minimal running costs.

Onboard navigation system via smartphone

The Tricity's new turn-by-turn navigation system has the power to make your daily commute even more efficient. Its intuitive, easy to follow guidance is designed to ensure that every ride is more enjoyable. Just download Yamaha's free MyRide app to your smartphone, pair it with your Tricity and you're ready to go!

Convenient Smart Key system

Fumbling around in your pockets or bags looking for keys is a thing of the past with the Smart key system. As long as you have the Smart Key with you in your wallet or pocket you can operate the Tricity 125. It's one less thing to worry about when you're in a hurry!

Fuel saving Stop & Start system

The Blue Core 125cc EURO5+ engine is an extremely economical design that makes the Tricity 125 one of the cheapest ways to move in the city. Its Stop & Start system automatically cuts the engine when you're waiting at traffic lights, saving fuel and reducing emissions. And when you want to pull away, just twist the throttle and you're on the move.
